Notes: Data are from DHCFP Hospital Discharge Data for FY2005. Surgeons are not listed if they performed fewer than 10 procedures statewide in 2005. Surgeries performed in US government hospitals (e.g., Veteran's Affairs (VA) hospitals) are not included in this report.

ICD-9-CM Definition: Discharges for the volume calculation were determined based on the ICD-9-CM diagnosis code of 278.01 – morbid obesity and ICD-9-CM procedure code of 44.38 – laparoscopic gastroenterostomy. **Hospital volume** was determined by the presence of the diagnosis code in any of the diagnosis fields and the procedure code in **any** of the procedure fields with each patient being counted only once. **Physician volume** was determined by the presence of the diagnosis code in any diagnosis fields and the procedure code in the **primary** procedure field only.
